

EPHESIANS 4:11-13

JOHN 17:23

GLOBAL UNITED FELLOWSHIP 2014 MISSION PROJECT

Our 2014 mission project is to launch an annual clean water and evangelistic initiative that will give us instant and tangible impact in 170 countries. We are using our innovative clean water filtration system as a means to provide clean water to those in need, and also as an evangelistic tool that allows our teams to share the Gospel of Jesus Christ with integrity.

THANKSGIVING IS THE OFFICIAL SEASON OF MISSIONS FOR GUF

Bishop Ellis has challenged EVERY GUF CHURCH to sponsor a minimum of 60 families with clean water & the Gospel during the Thanksgiving Season. TARGET DATES 11/4/14 – 11/23/14

Each filtration system sponsored:

- Provides clean water for an individual or family for an estimated 10 years
- Allows our teams to share Jesus Christ with those receiving the filtration system
- Supports the ongoing efforts of Global United Fellowship & provides tangible and spiritual impact globally.

The following is a suggested guideline to make this process simple for your church:

- 1) Every GUF Pastor is challenged to preach a message centered around Matthew 25 and providing clean water and the Gospel to those in need on one of the following Sundays 11/9 or 11/16 with a theme of Thanksgiving to help those in need.
- 2) Then set one of the 3 Sundays during the month of November (prior to Thanksgiving) to be “MISSIONS DAY” for your church. You can raise the funds throughout the month, with a final deadline of Sunday 11/23.
- 3) Show the 5 minute video featuring Bishop Ellis with the call to action for GUF.
<https://www.youtube.com/watch?v=d2bdo1zFr94>
- 4) The Pastor then gives an immediate call to action asking every family to sponsor at least one person with clean water for 10 years AND the Gospel of Jesus Christ for \$50. We will also be sending these with meals and new shoes.
- 5) **Contact PraiseFest Ministries to make your sponsorship.** This can be done online or through direct mail.

Dr. Matthew Dunaway (Director of Missions) may be reached at Matthew@PraiseFestMinistries.com or 205-292-4592 to receive the video and to make sure that your church is accounted for toward our goal.

FELLOWSHIP GOAL FOR 2014 – There are an approximate 400 churches within the fellowship at this time. Some churches should far exceed 1 case, so we are setting our goal at 25,000 filtration systems in year 1. This will allow us to share the Gospel with more than 100,000 people in 170 countries within 6 months.

LONG TERM – This plan is to make this an annual mission for GUF. Clean water will always be a need, and our fellowship can make an unprecedented impact through the unity that we are initiating. With 4000 churches involved in the future, we can put a virtual end to water related death and disease and most importantly, **we will use this platform to share the WATER OF LIFE in Jesus Christ.**
